The interest in Corporate Social Responsibility (CSR) has grown rapidly in recent years. Many different definitions of CSR have been offered and many related terms are in use, e.g. Corporate Responsibility and Corporate Citizenship. Most definitions include some of the following dimensions (Dahlsrud, 2008*):

1. The social dimension
2. The environmental dimension
3. The economic dimension
4. The voluntariness dimension
5. The stakeholder dimension

We welcome all papers/presentations related to CSR in some way, e.g. papers that would fall under some of the following headings:

- Nordic approach to CSR
- CSR in SMEs
- Corporate governance
- Business ethics
- Environmental responsibility
- Sustainable development (or business sustainability)
- Climate change and CSR
- CSR practices
- CSR barriers and drivers
